MESSAGE:

This evening I had a chance to watch Monday's "HD Day" program on my HD PVR ... Congratulations on your new amazing HD News Studio! It looks fabulous. I particularly like the look and feel of the Chronicle set with the stone facing in the background.

As a hi-tech guy (I purchased my HDTV and HD Satellite Receiver in January 2000 and currently subscribe to 3 HD providers) I can just imagine the great excitement at your station! I love all the Plasma, LCD and Rear Projection screens!

As someone who recently retired from a 40 year career with the weather service here in Canada, I was particularly enthusiastic about your HD Doppler Radar! No more fuzzy images!

I am wondering if ALL your local news will be in HDTV. As you may know KOMO4 News in Seattle has been in HDTV for several years now. However, even though many of their taped stories are in HDTV, most of their live remote stories are widescreen upconverts ... not true HDTV. Does the News Center have the technology in place to do live remote stories in HDTV?

Another question re: Chronicle's recent HDTV programs. I have noticed that some programs (with the exception of the studio shots) have not really been in HDTV, but 4:3 SDTV with Chronicle sidebars to fill out the 16:9 format. My HD Receiver indicates that they are new stories, so I am wondering why all are not HDTV.

Here in Vancouver most of the public seem to be well aware of HDTV. Several of my friends have recently purchased or plan to soon purchase an HDTV along with a HD receiver either satellite or cable. If you go into any electronic store you would be hard pressed to find anything but flat widescreen plasmas or LCD's. The picture tube all but disappeared over the last year. I am personally looking forward to upgrading my tube DHTV to a new 50" 1080P plasma in the fall ... cannot wait to see Chronicle on it!

I think what has really sold HDTV in this country is sports ... and hockey in particular. For me it has been the nature programming from PBS and National Geographic HD. There is so much HD programming on now that if a program is not in HD I will not watch it!!!

HD Day
Again congratulations on your fabulous new HD studio! I am looking forward to
watching Chronicle from its new home!

Congratulations on your switchover to HD. As an HD viewer for over four years, the new studio design is very striking, and complements the great "talent" you have had on board for so many years. Harvey's HD Doppler weathercasts are aesthetically quite beautiful, as well as unfailingly accurate, as before.

I'd love to visit the new set, if possible, as well as your new control room, having been in broadcasting long ago.

My son went to school with one of Jorge Quiroga's children, so at least in a small way, we feel part of the Channel 5 "family." We also were acquainted with Mark Mills, so "Chronicle" always has a special place in our lives- it's a really fine program.

One question- when will your news feeds transition to HD, as they are obviously not of the same pictorial quality, (in SD)? This discrepancy is quite apparent to the viewer, as you obviously know.

Best regards,
Jonathan

I am glad that someone is raising the bar for the news. I first saw the HD news on Thursday 17th of May. I live in New Hampshire and i will be watching your station from now on, for the news seeing as no one else has the insight as to broadcast news in HD. The only down side to the HD news is that not all of the stories or live feeds are in HD. I am sure the cost is very expensive for the HD cameras and soon your station will have all cameras in HD, and all of the news will be in HD.

Hi Bill,

We can't thank you enough for your outstanding support of The Ellie Fund and our Kelley for Ellie event (and everything we've done with Karen Holmes too). With your generous support, we raised \$75,000 on May 10! Please know that these funds are already being used to provide transportation to medical appointments daycare, housecleaning, meals and more for breast cancer patients and their families completely free of charge.

With all the charities that come to you for support, please know how much it means to us to have you (and Gail) on our team. We look forward to doing more good work with WCVB and helping more women and families with breast cancer than ever before.

All the best,

Julie

Keep up the great work.

Years ago in Boston I listened to WCRB -- on the AM band, I think. Living and working in NYC for the last 40 years, I've heard many local classical formats fade away. Glad the Internet found you -- and me -- still here. I listen at work.

would like to see the future programs not just the past. I welcome WCRB listening through my computer

Would be great to win for my wife's 50th b'day on saturday!!!

Wonderful to finally hear you in Concord,NH We used to only hear you in the car near Boston!!!

Wonderful programming. I just discovered you online when I was hoping to find out a particular piece that was playing [FAURE: "Pie Jesu"] and voila, there it was! Now I've got you playing on two radios AND my computer. Many thanks!

Wish your signal was a bit stronger. It is not reliable down here on the Cape. Enjoy it when we can get it!

WISH YOU WOULD GO BACK TO NAMING EACH PIECE BOTH BEFORE AND AFTER.WHY ARE THERE NEVER ANYVOCAL PERFORMENCES ?

THANK YOU !

Wish you would again partner with Arkiv Music with selections you play so one can remember & order.

Wish you were still at 109.5 We can't get a very clear sound now; the neighboring stations bleed over. Can your signal be made stronger?

wish we had beeter reception here in Attleboro...=(Its OK I listen to the BSO from your website on Saturday nights...

Why the emphasis on accurate birthdate and age information? Are you selling this information to potential sponsors?

Why do you ask for my age AND birthday? If you know my birthday, you probably could figure out my age. Also, put a transmitter on the south shore so we don;t have to suffer through the static now that you are on 99.5.

When I was living in NH a few years ago, I became acquainted with your station. I loved it, so much better than our classical 'music' station here. I am thrilled to be able to hear you once more via the internet. It brings back such great memories.

When all other stations become like noisy gongs that's when listening to the classics is such a pleasure for me. I listen mostly while driving. Thanks for all you do.

What would we all do without WCRB? Keep up the great programming.

We have been listening for 20-25 yrs. Thanks for providing wonderful programming. Since going to 99.5 it appears your commercial messages have increased considerably. We had changed out internet from comcast to verizon. So I am re-registering as a member. Thank you. I love the show.

We get much better reception now with the change to 99.5. Keep up the good music. Thanks.

very much enjoy your programs

very happy to know you moved to 99.5 instead of going off the air. I've been listening to WCRB since it was an AM station located near Bandeis (I think it was 1330 on the AM band??)

Very happy to get you on the radio again (couldn't get the old freq) and you are superb on the internet. Thanks David

very happy that classical music is still viable & most important, available on the airwaves. Usually I love and trust you completely but Oh! on dreary days like today (and ones to come!) you MUST play something more cheerful!

The radio is always set on WCRB in our home and in both cars. Have been listening for many years.

The quality of the broadcast reception of WCRB has deteriorated significantly since it moved from 102.5 to 99.5. I get a great deal of background noise and regular periods of dead air.

The phone number I submitted is my work number at a social club. Please keep my info private!

The name change is due to divorce.

The MUSIC you present is the finest.

The more Chopin the better!

The Herb Chambers extremely noisy advertisement just does not fit on WCRB. Can't you persuade them to upgrade to a more tasteful level for a classical music program.

Source of inspiration and relaxation

Sorry you had to move from 102.5 to 99.5, but so glad you're still on the air. I have been a listener since the days of Star West Jones.....

Sorry to see that you're no longer afiliated with WFCC in Chatham.

Sorry that you changed to the new frequency. I can receive it, but it's not as powerful/clear as 102.5 I enjoy the format and have been listening for years. Keep up the great programming!

Sorry 102.5 is gone =(Is 102.9 on Cape Cod also gone?? Glad you're all still here at 99.5! =)

So relaxing!

So nice to listen to such relaxing music at home and in the car. Thanks.
So happy we can still receive WCRB up here in Nashua. We're retired forever
So happy to be able to get WCRB in Concord, NH. Love the new web site too.
So happy that you are still with us!
So happy I can get reception again. Past 1.5 years came in static.
so glad you were able to remain on the air!!! i wake up every a.m. to Laura Carlo.
slight loss of reception here, please no more changes
Since you've changed to 99.5 We get better reception here in NH.
Since your switch of towers, I am able to receive your signal very strong in NH. You

Since you moved, I can only listen on the computer. It's been a real loss for me.
Since you moved to 99.5 I no longer can get your wonderful station. Please increase your

since you moved from 205.5 to 99.5 i can no longer get a good signal down on the south

the south shore???

Since you have moved to your new site I am no longer able to listen to your program at
the gym. There is no reception
since you changed your spot on the dial I can listen all day long. I love it! Your station is
the best.

Since you changed to 99.5, it is not coming in well here in Rhode Island, due to a
Providence radio station around the same freq area.

Since the station moved, reception in my cars is very spotty. Also, the loud commercials
are unpleasant. The old commercials were much more pleasing and I did do business
with sponsors.

Since I moved to NH five years ago this is the only radio station I listen too. I drive to
work with Laura and drive home with Ray. Thank you for preseving the excellent
classical programming.

Since hearing you in Redwood City, CA I have regularly tuned-in to have your music

relaxing music

Registered a long time ago but think I may have fallen off the list-- Listen online all day at work - found all my daughter's wedding processional on your site. My dad taped all the POPs concerts back in the 60's!! Thanks for being there!

Reception for 99.5 is not so good as it was for 102.5 here in RI.

reception fades in and out here in parts of newton near tv towers

Recently moved to CT. Nice to be able to maintain the Boston connection through WCRB.

Really glad you are still around!

Really enjoy the music ..& format.... and the Strong Signal!!

Ray Brown is the best!...and WCRB programming is the greatest!

Question: Why did you change frequency? It is much more difficult to get a signal on my home radio-- and I like to sleep with your station playing.

Puchini Fan.

Pls do not include me in any affiliated, non-affiliated, thrid party marketing lists for mail, email or phone.

Plelase do not share my personal information with others. Thank you.

PLEASE.... 1. More Vocal Music. 2. Play more entire pieces rather than single movements. 3. Broader programming, rather than classical top 40. 4. More contemporary pieces. 5. Less chit-chat from Laura Carlo!

Please, I would love to win a Vacation. Me and my wife had NOT had a vacation in 12 Years.

Please, I am a loyal listerner...but there is too much repetition of Finlandia, Dance Macabre, Peergynt Suite...Give them a well deserved rest. They are fine pieces but too much repetition kills them. Broaden your range and you'll keep us loyal list

Please stop playing the Moldau by Smetana and tell us what your playing before and after you play it!!

please sign me up for your trip a day promotional

Please send me free promotions.

Please put the music you are playing back on the RDS

Please put a "Contact Us" tab on the web site.

Please play more Strauss and even more Mozart! Keep up the good work!

Please play more complete works from the 19th and 20th centuries, rather than excerpts and an over-abundance of 16th & 17th century short works. "Light " classical is not always good classical.

Please play more choral works

Please play a more varied group of pieces. We are so tired of hearing the same music played over and over and over again. Thanks

PLEASE PICK US !!!

PLEASE PICK ME!!!!!!

Please note my wife's address has changed (Nancy Bellmore), we weren't sure how to update. Thank you, Shawn & Nancy Bellmore

Please note corrected spelling of my first name. Thanks

please let me know what are the hours to listen to the radio to win a trip

Please keep that classical music coming, it is our source of peace and joy. Please continue former practice of including lesser known pieces from time to time. Thank you.

Please keep all info private!

PLEASE GIVE THE DESCRIPTION OF THE LAST PLAYED PIECE (S) EACH TIME YOU SPEAK ON AIR. OFTEN I HEAR WE ALWAYS GIVE THE INFO ABOUT WHAT HAS BEEN PLAYED,,,BUT THEN THEY DON'T!

Please fix the bass sound. It is distorted and very disturbing. I have just sent two emails addressing this problem. As a classical music station I feel you should adhere to accepted performance practice which aims for balance. Thank you. Carol

Please enter me into all your contests and announce over the late night radio when they are. Thanks

Please enter me in the current drawing for a night at the Langham. Thank you!

Out of curiosity, why did you have to swap "stations" with the c&w station? Otherwise, thank you for being there. (here)

ou were conducting a recent survey of WCBR listeners of their ten most popular classical numbers. Did you publish such a listing? If so, how may I receive a copy?

One of the very few stations that play classics, light classics, etc Great!

On your website, when it says "Buy It Now", is that digital download/IPOD-type ??? I'm in the CD age!

On 2/28/07 I went online to check what was playing. The banner stated DVORAK Symphony #7 in D Opus by LA philharmonic. At 8:05pm the I wanted the name of the song playing and it stated the same thing, yet I know it wasn't . Please advise what I was listening

I've listened to you for years - my teenage sons request classical music when they need to relax (but don't tell their friends!) I'm glad to sign-up again. Years ago I belonged - went to a great show at Great Woods. We all listen to your station at wor

I've listened to WCRB for over 30 years...don't know why it took so long to join. Love Laura Carlo in the morning and all your great announcers during the day...a truly great station. Especially love the classical top 40 and children's classical hour. I've enjoyed your station for several years now but am disappointed that you moved since the signal is harder to get in the Attleboro area as I drive around for my job. I've enjoyed listening to your station for many years and I still do, but since the call letter change it seems as though the mix of music has changed [less music in the top 100].I also would like to see the titles of each piece as it plays printed on my

I've enjoyed listening to WCRB for many years. Laura Carla brightens my mornings and the selection of music matches my own choices so beautifully. My only complaint is regarding your new station announcer (starting around the station move) whose voice gra

I've enjoyed CRB for many years - new signal is not as strong. I weigh in on the "full " piece rather than single movement preference, and on variety in programming. However, do whatever it takes to keep classical music on the air, and add me to the Car

It's much harder to get you on my radio since you moved to 99.5. I am glad to be able to get you on the internet, but is there a way to increase my ability to get a good signal for your station on my radio in Westborough? Thanks
It's great to listen to WCRB on the internet while wintering in Florida.
It would be nice if the station could expand its listening range back to the Fall River, MA - Providence, and other areas south thereof, as it was prior to switching frequencies from 102.5 to 99.5. Otherwise, everything is fine, but I (we) have less oppor

It was hard to find this place to register. There was no clear indicated path. With all the advertising of the station I would expect better directions.
It is so difficult to get clear reception now that the station has moved, I can no longer rely on CRB to be my wake-up and morning station. This has been very very disappointing.
